

# EO Global Entrepreneur Indicator

GLOBAL EDITION March 2016

In its sixth year, the **2016 Global Entrepreneur Indicator (GEI)** is a twice-yearly gauge of the near-term global economic outlook that delivers data on job creation, profit outlook and access to capital, among other key metrics. The Entrepreneurs' Organization's March GEI—taken by 7,034 leading entrepreneurs—reveals the current state of 48 countries' business landscapes and economic health, among other statistics designed to identify economic trends, drive fiscal growth and strengthen communities.

## JOB CREATION

Entrepreneurs indicate increase in full-time staffing levels

## REVENUE

## ECONOMICS

# 79%

Entrepreneurs cite willingness to start a new business in the current economic environment

## ACCESS TO CAPITAL

Respondents report increased funding opportunities during past six months

## PROFIT OUTLOOK

Business owners overwhelmingly optimistic in capital surpluses in next six months
