

In its seventh year, the **2017 Global Entrepreneur Indicator (GEI)** is a twice-yearly gauge of the near-term global economic outlook that delivers data on job creation, profit outlook and access to capital, among other key metrics. The Entrepreneurs' Organization's September GEI—taken by 4,593 leading entrepreneurs—reveals the current state of 51 countries' business landscapes and economic health, among other statistics designed to identify economic trends, drive fiscal growth and strengthen communities.

JOB CREATION

Entrepreneurs indicate increase in full-time staffing levels

REVENUE

ECONOMICS

82%

Entrepreneurs cite willingness to start a new business in the current economic environment

ACCESS TO CAPITAL

Respondents report increased funding opportunities during past six months

PROFIT OUTLOOK

Business owners overwhelmingly optimistic in capital surpluses in next six months
