

EO Global Entrepreneur Indicator

U.S. EDITION September 2017

In its seventh year, the **2017 Global Entrepreneur Indicator (GEI)** is a twice-yearly gauge of the near-term global economic outlook that delivers data on job creation, profit outlook and access to capital, among other key metrics. The U.S. sampling of the Entrepreneurs' Organization's September GEI—taken by 1,892 leading entrepreneurs—reveals the current state of the U.S. business landscape and the country's economic health, among other statistics designed to identify economic trends, drive fiscal growth and strengthen communities.

JOB CREATION

Entrepreneurs indicate increase in full-time staffing levels

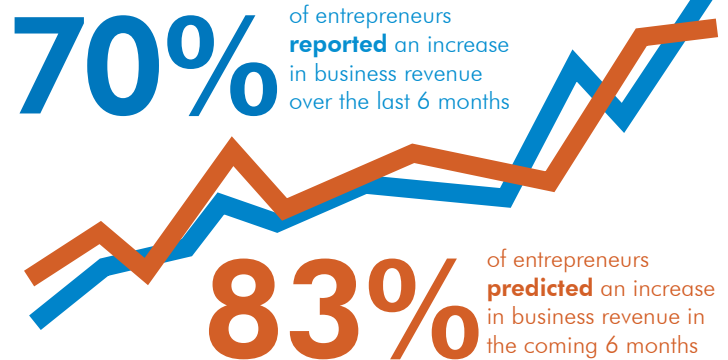

ECONOMICS

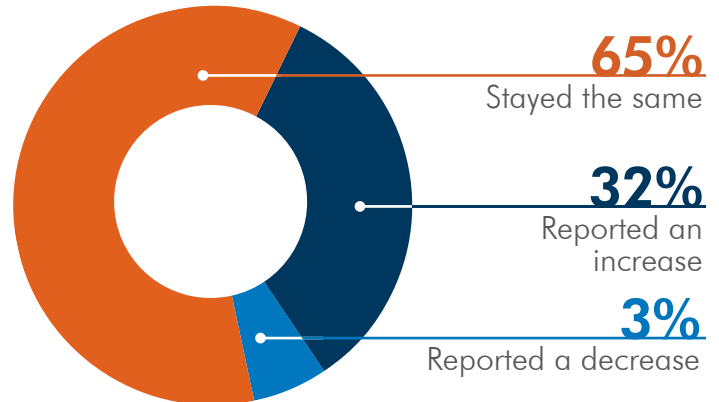

Entrepreneurs cite willingness to start a new business in the current economic environment

REVENUE

ACCESS TO CAPITAL

Respondents report increased funding opportunities during past six months

PROFIT OUTLOOK

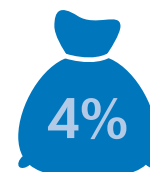

Business owners overwhelmingly optimistic in capital surpluses in next six months
